PROTECT, PRESERVE, RESTORE & REPAIR

Experts in High Performance Coating and System Solutions
for Commercial, Industrial, and Residential Applications

PremiumCoat® has layers

- self flashing
- only painting tools required
- no sharp edges
- all roof areas / details covered
- no additional accessories needed
- reinforced strength adds durability

PremiumCoat® is a **water-based acrylic**

- no odor
- no heat / no open flame
- simple & easy application
- spray, brush, or roll applied
- no disruption to occupants
- no disruption to service

PremiumCoat® has
excellent adhesion

- adheres to a variety of substrates
- flexible / multiple starting points
- prioritize leak repair
- costly tear-offs can be avoided
- faster job turnover

PremiumCoat® is **fabric reinforced**

- reduced call backs
- reinforced movement points
- reduces thermal shock

PremiumCoat® is **solar reflective**

- reduces surface temperature
- cooler for workers/applicators

SRI 99

PremiumCoat® FinishCoat

SRI 117

PremiumCoat® FinishCoat
High Reflectant Plus

PremiumCoat® is
sustainable

- safe for applicators
- no solvents

PremiumCoat® is
**3rd party
certified**

- 3rd party component testing
- 3rd party stand-alone system tested
- validation
- peace of mind

PremiumCoat® has **proven performance**

- project references
- credibility

INDUSTRY EXPERTS

Our team of experts includes individuals that were involved in the initial development of roof coatings as well as those dedicated to formulating the highest quality, highest performing coatings and systems of the future.

BILL KIRN

RRO, CSI, RRCI

QCP Market Mgr –
New Innovations

Bill spent much of his career at Rohm and Haas Company, as research chemist and market manager for roof coatings used in low slope, tile and fiber cement applications and in research, developing improved acrylic products for a wide range of construction applications. He holds four U.S. patents for a wide range of chemical applications.

He holds a Bachelor's Degree in Chemistry from Temple University, Masters in Organic Chemistry from St. Joseph's University and MBA from Temple University.

STEVE HEINJE

QCP –
Technical Services

Steve is the head of the QCP Technical Services Department. With over 24 years of experience in roof coatings, he is a board member and co-chairs the White Coatings Council of the RCMA. Steve has been a co-chair of the RCMA Solar Reflective Coatings Council and currently leads several task groups in ASTM D08, as well as maintaining active memberships with ASQ, ASC and FSCT.

He holds degrees from Gonzaga University, Eastern Washington University- Cheney, University of Missouri - Rolla, and Eastern Washington University- Riverpoint.

PremiumCoat® has **reliable support**

- in-field technical support
- on-site inspections
- fast in-person response
- on-time & accurate delivery
- product assurance
- quality control
 - ISO 9001 & 14001 certified
- customer service
- no call backs
- no job delays
- new revenue opportunities
 - innovative products
